

How is the safety plan working?

This map is to help everyone talk together about how the safety plan is working and to work out if anything needs to change.

Safety Scale:

On a scale of 0 - 10, where 10 is you are 100% confident that the safety plan is being followed and is a strong enough plan to keep the children safe all the time and 0 is you think the plan is not working at all and you are really worried that the children are going to be hurt, where are you on this scale?

0

10

Worries?

(What are your worries about the safety plan and what are you worried might happen to the children that has you scaling this low on the scale?)

Safety?

(What's going well in the safety plan and what is everyone doing that has you scaling this high on the scale?)

What needs to happen for you to be at a 10?

(What else would you need to see everyone doing or what else needs to be included in the safety plan for you to scale at a '10'?)
